# Importance Of Skill Development For Students

Skill development helps build a strong foundation for students at the school level. It helps build self-esteem, confidence, and leadership skills. It develops problem-solving skills and collaboration.

It helps students become independent thinkers and encourages them to plan for their future. As schools in India are primarily academic-centric, introducing skill development through the curriculum is essential.

It helps students explore and learn things outside of their textbooks. It also gives them the freedom to think independently and make choices at an early age.

It builds team spirit, creativity, inquisitiveness, trustworthiness, assertiveness, and sympathy in students. All of this goes on to create a solid foundation for a successful academic and professional future. Education and skill development go hand in hand in preparing students for the pressures and demands of today's challenging world. Skill development benefits students in the following way:

- It builds confidence in them to participate in collaborative ventures.
- It helps them take responsibility for their actions.
- Students learn to make their own decisions and understand how their decisions can have repercussions, too.
- They learn to tackle issues and situations on their own.
- Skill development helps students develop readiness to face challenging situations in their future.

Understanding the importance of skill development in students, according to NEP 2020, CBSE has taken a major step in modifying the curriculum and implanting Art Integration as an integral part. We at AGS have taken utmost care in its practical implementation. So, 2023-24 academic year comes with various set of activities and scientific pedagogies to groom our students in a unique way.

# January & February Activities

31 DEC

13 FEB

NO BAG DAY

I TO X

Annual "No Bag day" was held conducting different kinds of activities.

## Skill Development Activities for class I to III

Students had a wonderful time \*Observing The Magic of Science\* Teachers explained to them the basic concept of Science with the help of experiments. Students were astonished to witness the magic world of science. In the second segment moral stories and educational movies to develop social skills and basic etiquettes were shown to them.

# January & February Activities

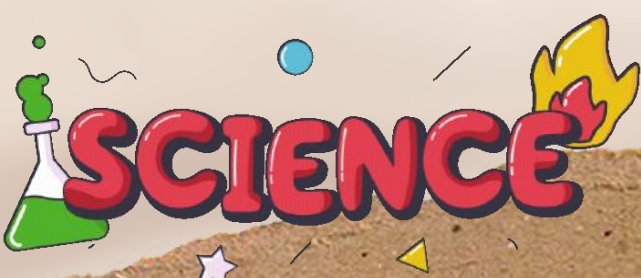

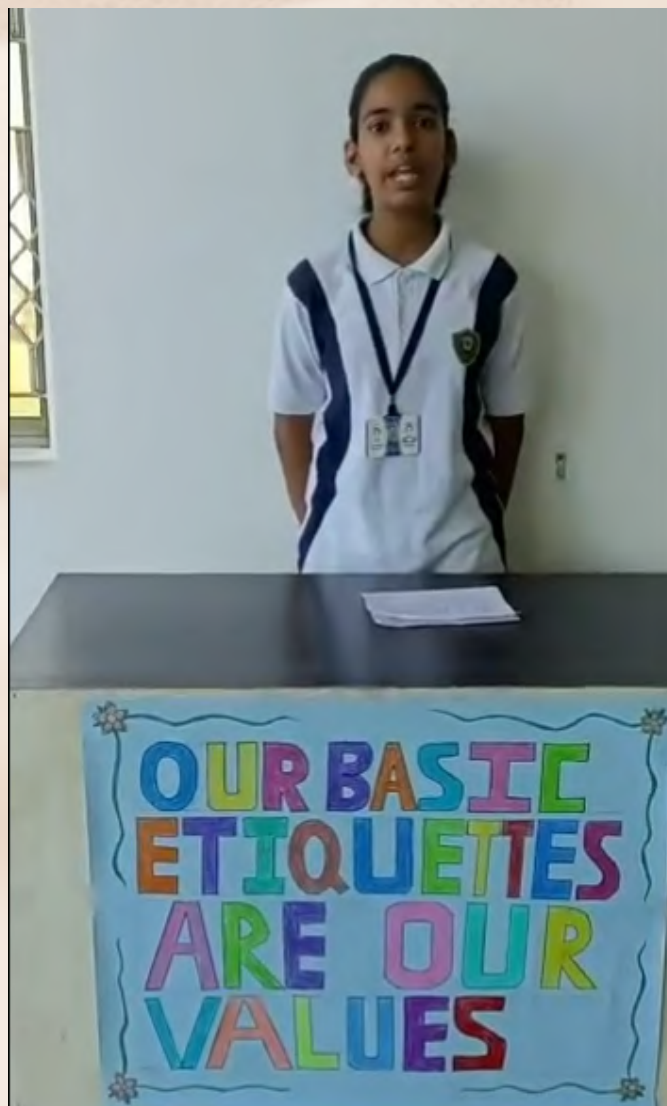

## AGS Science Club

Science Club activities focused on making our students understand the methods of Food preservation, waste management and exploring science in our Kitchens.

## AGS Dramatics Club

Education is all about developing skills, values and basic etiquettes. On our last No-Bag day of this academic year, the dramatic club focused on all these areas. Students framed skits on the basically etiquettes to be followed in various areas of life.

# January & February Activities

## AGS Social Service Club

Social Service Club students performed activities focusing on developing Table manners, Social Empathy and Giving helping hands. Some students role-play as physically challenged and others help them in coping-up with day-to-day activities. This activity made some students understand the difficulties faced by injured and physically challenged people and also made others become more empathetic.

## AGS Arts Club

Art is in every particular of nature. In this club we try to develop an artistic vision in our students. Focusing on basic etiquette, our students today first designed flash cards. Our Managing Director Sir; who has done his graduation in fine arts gave some golden pieces of advice to students and even taught them the layout of making flash cards.

# January & February Activities

15 FEB
