In House Teachers' Training

**AGS & AGNS
Staff**

The most valuable resource that all teachers have is each other. Without collaboration our growth is limited to our own perspectives. - Robert John Meehan

Teachers' Training encourages them to support the holistic development of the child and to continuously refine their own skills to create the best possible learning environment for children. **Ms. Suprabha Menon- Principal (Navrachna School)** and **Ms. Kiran Tiwari - Activity Coordinator (Navrachna School)** conducted a great session for our teachers.

**30
Apr.**

In House Teachers' Training

**AGS & AGNS
Staff**

Digital tools help to streamline often complex processes and help to make them more uniform, safe, productive, and beneficial.

Digital tools have altered almost every aspect of modern life and have become faster and more efficient with technological innovation.

Online digital networks allow educators to share resources and digital tools...

Special training for our educators was arranged to make them learn use of IFP to make their classroom learning more efficient and effective.

AGS & AGNS Activities of April and June 2024

30
Apr.

Five Sense Activity

PG to Sr.KG

An activity was conducted to make our students understand five important sense organs of the body and their importance.

For sight, students explored various colours and shapes through a colourful art project, allowing them to appreciate the beauty around them.

To engage their sense of touch, we set up sensory bins filled with different textures like sand paper, feathers, slime, artificial grass mat and sponge, encouraging tactile exploration. For the sense of taste, students savoured a variety of flavours during a tasting session, from sweet fruits to salty and spicy snacks, bitter vegetables, and sour mango enhancing their appreciation for different tastes.

The sense of smell was awakened through scent jars containing aromatic herbs, spices and flowers, inviting students to guess each scent.

Finally, the sense of hearing was stimulated through listening exercises, where students identified sounds from nature, music, animals & vehicle sound and everyday life.

This multi-sensory experience not only deepened their understanding of the five senses but also fostered a greater connection to the world around them.

AGS & AGNS Activities of April and June 2024

**02
MAY**

Prize Distribution of Colouring Competition

Nursery to
