## Atmiya Green School: A Vision for Holistic Learning

**At Atmiya Green School**, established in 2010, we are dedicated to fostering a dynamic and inspiring educational environment where innovation and tradition merge seamlessly. Our commitment to shaping the future of young minds goes beyond academics, embracing a holistic approach to education that nurtures cultural, social, and leadership development. We strive to empower students to become responsible, diligent, and value-driven individuals who positively contribute to society.

Our mission is built on the belief that education is a transformative journey that shapes character and intellect. By blending progressive teaching techniques with moral values, we encourage students to develop critical thinking skills, creativity, and a deep sense of responsibility. Our school stands as a beacon of educational excellence, constantly evolving to meet the demands of a rapidly changing world while preserving essential values.

### Dynamic Learning Environment

Atmiya Green School is proud of its dedicated team of educators led by Managing Director **Mr. Pravin Kachhadiya** and Campus Director **Rinku ma'am**. They, along with a passionate Principal **Mr. Krishan Chandra Upadhyay**, administrative team, including Administrator **Kamlesh Sir** and Coordinator **Archana Sharma**, ensure the smooth functioning of the school and the delivery of a high-quality educational experience.

The strength of Atmiya lies in the seamless collaboration between our teachers and inquisitive students. Teachers not only impart knowledge but also mentor and guide students, helping them discover their passions and talents. Our interactive classrooms foster an engaging atmosphere where learning is enjoyable and meaningful.

### A Hub of Extracurricular Activities

Recognizing the importance of extracurricular activities in holistic development, Atmiya Green School offers a wide range of co-curricular opportunities. These activities help students develop life skills, build confidence, and explore their creative potential.

**Karate :** This martial art instills discipline, focus, and self-defense techniques in students, promoting physical fitness and mental resilience.

**Skating :** Through skating sessions, students learn balance, coordination, and determination while enjoying a fun and invigorating activity.

**Dance :** Dance classes provide an artistic outlet for students to express themselves creatively while enhancing their physical stamina and confidence.

**Annual Day :** The school's Annual Day celebrations are a grand event where students showcase their talents in music, dance, drama, and other performances. It fosters teamwork and a sense of accomplishment.

**Sports Day :** Sports Day promotes physical fitness and a spirit of healthy competition among students. Various sports events help instill teamwork, leadership, and sportsmanship qualities.

**Sports Day :** Sports Day promotes physical fitness and a spirit of healthy competition among students. Various sports events help instill teamwork, leadership, and sportsmanship qualities.

## **Leadership and Administrative Excellence**

The strong administrative framework at Atmiya Green School plays a significant role in its success. Managing Director Mr. Pravin Kachhadiya along with Principal Mr. Krishan Chandra Upadhyay brings visionary leadership and a deep commitment to educational excellence. Campus Director Rinku ensures the smooth execution of academic and extracurricular programs. Administrator Kamlesh efficiently manages school operations, while Coordinator Archana Sharma oversees the academic curriculum and student activities.

The leadership team works cohesively to create a nurturing environment where students can thrive. Their dedication and collaborative spirit have made Atmiya Green School a leading educational institution in the region.

## **Nurturing Future Leaders**

Atmiya Green School believes in preparing students for the challenges of the future. Beyond academic achievements, we emphasize the development of leadership qualities and self-mastery. Our students are encouraged to take initiative, think independently, and lead by example.

Through various projects, competitions, and group activities, students gain essential life skills such as problem-solving, communication, teamwork, and decision-making. These experiences prepare them to become confident, compassionate, and capable leaders in their respective fields.

## **Vision for the Future**

As we move forward, Atmiya Green School remains committed to setting new benchmarks in education. Our focus will continue to be on fostering a culture of learning where both academic and personal growth are prioritized. We aim to inspire students to pursue excellence, explore their passions, and make meaningful contributions to society.

With a strong foundation built on values, innovation, and leadership, we are confident that Atmiya Green School will continue to be a beacon of educational excellence. Our journey is guided by the belief that "Self-Mastery is the True Mastery," empowering our students to lead purposeful and fulfilling lives.

In conclusion, Atmiya Green School stands as a testament to the power of holistic education. We take pride in shaping future leaders and contributing positively to the community through education. The collaborative efforts of our dedicated educators, administrative team, and enthusiastic students have made our journey a remarkable one, and we look forward to even greater accomplishments in the years to come.

## Child Development

Development' means changes in your child's physical growth. It's also the changes in your child's social, emotional, behaviour, thinking and communication skills. All of these areas of development are linked, and each depends on and influences the others.

In the first 5 years of life, positive experiences and warm, responsive relationships stimulate children's development, creating millions of connections in their brains. In fact, children's brains develop connections faster in the first 5 years than at any other time in their lives. This is the time when the foundations for learning, health and behaviour throughout life are laid down.

Children's development affects all areas and stages of their development. In fact, nurturing relationships are the foundation of healthy child development.

Through warm, responsive relationships, your child learns vital information about themselves and their world. For example, your child learns that they're loved, safe and secure. They also learn about what happens when they do things like cry, laugh or ask questions.

Your child also learns by seeing relationships among other people – for example, by seeing how you behave with other family members or friends. This learning is the foundation for the development of your child's communication, behaviour, social and other skills.

In general, development happens in the same order in most children, but skills might develop at different ages or times. For example, children usually learn to stand, and then they learn to walk. But this development can happen any time between 8 and 18 months.

So if you're wondering whether your child's development is on track, just remember that development happens over time. Differences among children are usually nothing to worry about.

Whether you're a parent, grandparent, kinship carer or foster parent raising a child, you're always learning. It's OK to feel confident about what you know. And it's OK to admit you don't know something and ask questions or get help.

It's also important to look after yourself. Looking after yourself physically, mentally and emotionally is good for you, and it's good for your child. When you're well, you can give your child the loving attention they need to grow and develop

### Search

Child development is the process children take as they grow from infancy into adulthood. As children grow, they develop the skills and behaviors they need to learn about the world around them. Children show their interest in learning by being curious, persistent, and creative while they play and interact with others.

Families and other caregivers play important roles in fostering children's healthy development. You know your child best and are their first and most important teacher. Learning more about how children grow and develop can give you new ways to support your child's learning and well-being. It's important to remember children develop at their own pace.

- The Centers for Disease Control and Prevention (CDC) has resources to help you learn about the basics of child development, as well as helpful tips for families to encourage healthy development at every age.
- Explore a variety of tips and resources from the federal Office of Early Childhood Development to help you support your young child's healthy development.
- For more information about child development and resources near you, select your state or territory on ChildCare.gov's **"See Your State's Resources"** web page and select **"Child Development and Early Learning Resources."**
- From birth to 5 years, your child should reach milestones in how they play, learn, speak, act, and move. The CDC's resources on developmental milestones help you track your child's development and act early if you have a concern.

## **Title: Celebrating Excellence at Atmiya Green School!**

As we step into another exciting year at Atmiya Green School, we can't help but look back at our impressive journey so far! With a legacy of [number] years, our school has established itself as a hub of academic excellence, innovative thinking, and holistic development.

### **Achievements :**

Our students have made us proud with their outstanding achievements in various fields. From winning regional and District-level competitions to excelling in board exams {for std 10th}, our students have consistently demonstrated their talent and dedication.

### **\*Events:**

The past year has seen a vibrant array of events that have brought our students, teachers, and parents together. From the spectacular Annual Function celebrations to the thought-provoking SOF International Science Olympiads (competitive competitions), each event has been a testament to our school's commitment to fostering creativity, teamwork, and community spirit.

### **\*Special Mentions:**

We're thrilled to announce that our school has been recognized for its exceptional contributions to education. Our students have also received special awards and recognition for their outstanding achievements in sports and arts. A special shoutout to our student leaders - the Head Boy, Head Girl, Prefects, House Captains, and Vice Captains - who have demonstrated exceptional leadership skills, guiding their peers and making our school proud!

As we move forward, we're excited to build on our strengths and explore new horizons. Here's to another amazing year at Atmiya Green School!
